Variable Rate Irrigation Field Day

Leading edge irrigation technology

- See variable rate irrigation (VRI) in action
- Hear from leading scientists and irrigation industry experts
- Find out John Wright's (farmer) perspective
- How much water has Wainono Farm saved this season across a range of soil types?
- What are some of the technologies that can help us improve irrigation management?
- Get information on cost savings and for investment decisions

Thursday 16 February 2012

11:00am – 1:00pm

*To be followed by lunch – please rsvp so we have an idea of numbers
catherine.ibell@dairynz.co.nz or 03 321 9002*
